EXPERIENCE

Web Developer

Majority Strategies (Junior Web Developer) Jan 2022 - Present

- Quickly develop custom WordPress themes based in HTML, CSS, PHP and JavaScript with integrated custom post types and ACF
- Maintain over 600 websites (pushed over 40 sites live)
- Build landing pages within 3 days and microsites within 5 days
- Deliver content from WordPress CMS backend to a React front end via the WP REST API

Baxter Research Center (Contract React Web Developer) Nov 2021 - Dec 2021

- Build a functional page for users to submit a list of company ads for deep analysis of efficacy
- Adapt page design to respond to screen size

Clayton InterGalactic (Contract React Web Developer) Aug 2021 - Dec 2021

- Re-designed and deployed company website
- Construct mock designs for web pages in Figma

V School (Teaching Assistant) Aug 2021 - Oct 2021

- Led two daily standup meetings of 5-8 web development students
- Tutored students in subjects including JavaScript, Git, React, Node.js, RESTful APIs, and MongoDB
- Promptly responded to student questions in Slack channels in both written communication and remote meetings

VelocityOps (Contract React Web Developer) Nov 2021 - Jun 2021

- Quickly built and styled screens for a React Native application
- Integrated Firebase data into financial dashboard graphs
- Contributed to UX wireframe and created mockup designs for a mobile shopping application in Figma
